

IAM Dual-Sector Physics: Matter Sector, Photon Sector, and the Phantom Crossing

DESI BAO distances (photon sector) $\equiv \Lambda$ CDM $\cdot$ DESI growth rates (matter sector) suppressed by $\mu(a) < 1$ $\cdot$ Mixing them forces $w \neq -1$

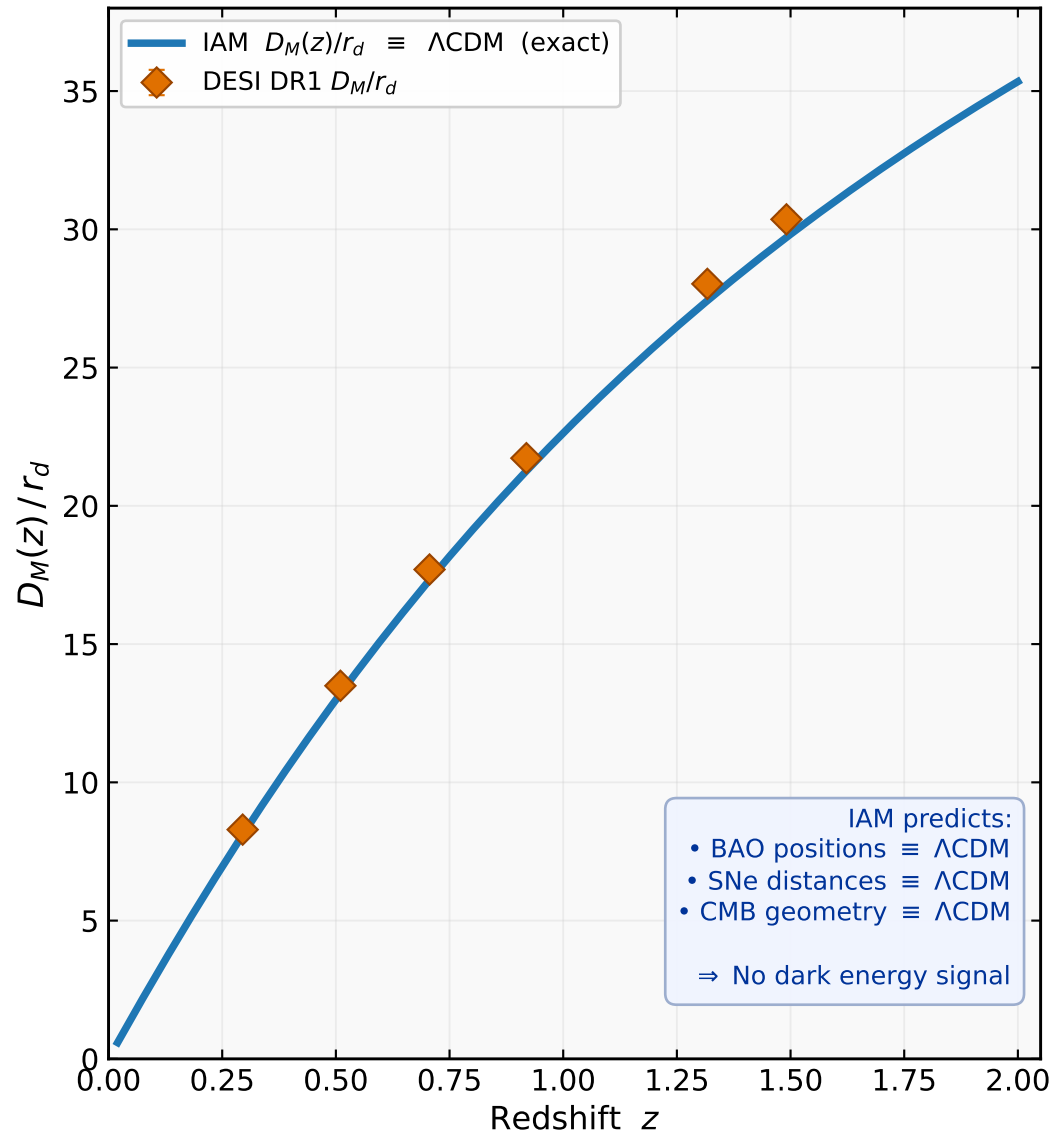

MATTER SECTOR

IAM suppresses growth ($w = -1$ throughout)

PHOTON SECTOR

IAM $\equiv \Lambda$ CDM exactly ($\Sigma = 1$)

MIXING THE SECTORS

Single-fluid fitter infers phantom dark energy
